

Anti-bribery & Corruption Policy

PeptiDream Group will not tolerate any violation of bribery and corruption. We establish and operate an internal system and mechanism to eliminate bribery and corruption.

1. To gain business and business advantages in all countries and regions where we operate, we prohibit the offer, promise, offer or request or receipt of bribes (monetary or economic benefits) for the purpose of improperly affecting public affairs or formal decisions.
2. All expenses, including payments to third parties, are recorded and stored accurately and appropriately in an accounting book so that it can be proved that no bribery or corruption has occurred.
3. When executives and employees violate this policy, they will be punished according to internal labour regulations.
