

## Tax Policy

PeptiDream Group strives to ensure highly transparent tax practices and minimize potential taxation risks by complying with tax laws and regulations as well as fulfilling our tax duties including preparing and filing tax returns.

1. We recognize that ensuring tax transparency is an important aspect of corporate social responsibility. We make efforts to ensure appropriate filing and tax payment is done in accordance with local tax laws and regulations in all countries and regions where we operate, as well as international tax standards established by international organizations.
2. We do not take tax avoidance measures such as the use of tax havens and do not develop tax strategies that go beyond our scope of our normal business operations.
3. We will use applicable preferential tax treatments within the scope of our normal business activities and strive to maximize our business value by improving tax efficiency.
4. We seek to develop and maintain good relationships with tax authorities in each country or region, by being open, constructive and collaborative. In the event of disputes with tax authorities, we will resolve these issues through proactive dialogue with tax authorities.
